DETAILED ACTION

Specification

1. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.
2. The following title is suggested: A METHOD OF MAKING A THERMAL MANAGEMENT FOR A CIRCUIT BOARD PANEL.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 2, 5, 8, 9 11, 17 and 18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In each of claims, the phrase of "group comprising" (for example in claim 2, line 3) is unclear as to whether the limitations following this phrase are required all together or as each individually, which render the claims as being indefinite. For example in claim 2, is only one composition required, (at lines 3-5) or are all of the compositions required, for the material of the solvent?

The same problems in claim 2 above also occur in each of claims 5, 8, 9, 11, 17 and 18.

Allowable Subject Matter

5. Claims 2, 5, 8, 9, 11, 17 and 18 are would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

6. Claims 1, 3-4, 6-7, 10, 12-16 and 19-20 are allowed.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tai Van Nguyen whose telephone number is 571-272-4567. The examiner can normally be reached on M-F (7:30 A.M - 4:30 P.M).
